## Notes from Meeting #2080 – 18<sup>th</sup> of January

Unfortunately, this week saw the return of the use of ZOOM. We had apologies from **Rhonda**, **John O** and **Ron** but were very pleased to be joined by **Ernie**. Here is a clip.

Les went through the roster for the forthcoming Carousel & Bunnings.

### Guest Speaker – Nomiki Rebecca Thomas

Our Guest speaker this week was Nomiki who attended the meeting together with her mother Maria Abraham (see above to the left of Mark). Nomiki is 12 years old and recently wrote a book for her Year 7 Personal Project. Getting it done in the time available was a major challenge and she consulted with the well known authors, Phil Cummings, Kate Loveday and Michele Nardelli and also with publisher Anna Solding. Her 64 page book, '**Goodbye**', is about a girl commencing university dealing with intrigue in conjunction with her spy father. Nomiki's confidence and communication ability were abundantly clear from her polished verbal and PowerPoint presentation. It was a pleasure to watch.

**What were the stages of writing a book?**

- Writing
- Editing
- Structural editing
- Designing cover
- Printing

The book sells for \$15 and proceeds are being donated to the **Indigenous Literacy Foundation** with \$330 being donated to date.

Thank you for your support

April 1-3

## Rotary D9510 - 2022 Conference

1st - 3rd April

## Barossa Arts Centre

Faith Lutheran College, 130 Magnolia Rd, Tanunda

To register, please go online to <https://rotary9510.org/sitepage/conference-2022>

Please note that our club, through Brian & Heather Wheatley, has been charged with running the **quiz night** on Friday the 1<sup>st</sup> of April.

## The Four-Way Test

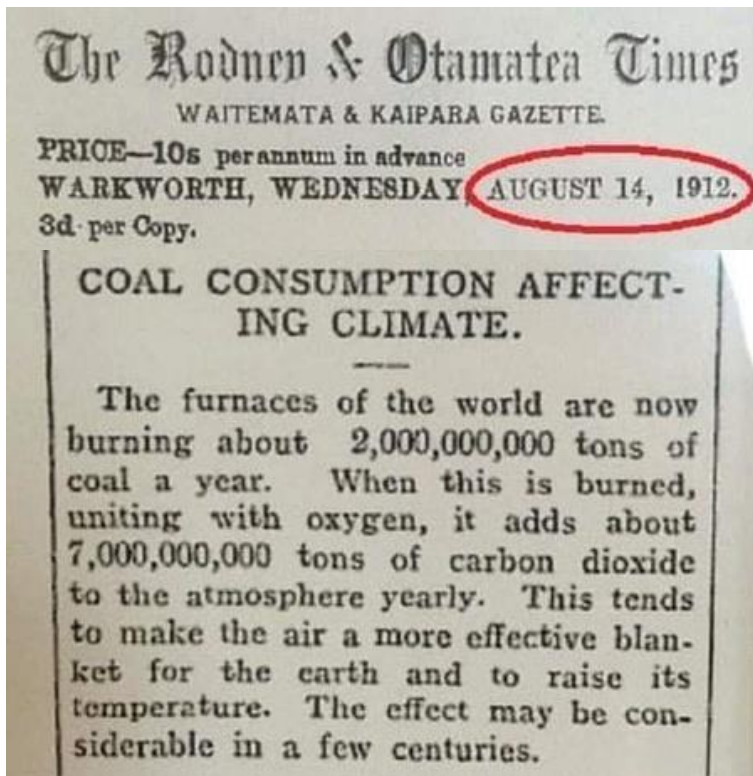

of the things we think, say or do

1. Is it the **truth**?
2. Is it **fair** to all concerned?
3. Will it build **goodwill** and **better friendships**?
4. Will it be **beneficial** to all concerned?

## Wise words from the past

This article is becoming well known and shows that the phenomenon of global warming has been known as a potential problem for many years. I suspect the author did not realise that when he says 'a few centuries' it turned out to only be **one**.

Interestingly, the global annual rate of coal consumption in the past 10 years is about 8,000,000,000 tons. This is a bit over 1 ton per person per year, which was also the case in 1912.

## The Semaphore Carousel

A photo of the rather delightful Carousel.
