The Mad March Cycle Challenge

I'm raising funds for **Australian Rotary Health**.

Aiming to ride at least 500km in March and your donation will spur me on.

I've now done over 200km since 1st March so still some way to go.

Please log on to <https://madmarchcyclechallenge.raiselysite.com> & click **DONATE**

Look for my name **RUSSELL GREEN**, click on my name and make your donation.

Update: The ride continues. Completed my nominated 500km last week but increased that yesterday to 540km with still a week to go. Fundraising has reached \$760. Those who have already donated many thanks.

I'm working towards my goal of \$1,000.00 and I'd really appreciate your support. Donate here: <https://madmarchcyclechallenge.raiselysite.com/russell-green>.

Things we learned from the movies:

If being chased through town, you can usually take cover in a passing St. Patrick's Day parade - at any time of the year.

It's easy for anyone to land a plane providing there is someone in the control tower to talk you down.

The ventilation system of any building is the perfect hiding place. No-one will ever think of looking for you in there and you can travel to any other part of the building you want without difficulty.

A man will show no pain while taking the most ferocious beating but will wince when a woman tries to clean his wounds.

All bombs are fitted with electronic timing devices with large red readouts, so you know exactly when they're going to go off.

It does not matter if you are heavily outnumbered in a fight involving martial arts -- your enemies will wait patiently to attack you one by one by dancing around in a threatening manner until you have knocked out their predecessors.

Even when driving down a perfectly straight road it is necessary to turn the steering wheel vigorously from left to right every few moments.
